

**Skill Name: Resourcefulness**

**Skill Description: Ability to find resources or create innovative solutions to problems.**

**Skill Notes: Develops new solutions to problems; overcomes obstacles.**

1. Describe a recent situation at work where you overcame major obstacles to get something done.
2. Describe a situation where your first attempt to do something failed. But, you came back, tried a new approach, and were successful.
3. Describe some of your recent work that best reflects how you apply new techniques to solve practical problems.
4. Tell me about a specific incident on your last/current job where you went 'beyond the call of duty' to get something done.
